LIMRA's RightChoice System
for Field Employees

Finding the right candidates to fit your job openings can be tricky, so you want to make sure they will succeed in the role and fit into your company culture. With LIMRA's **RightChoice System**, you can customize a better candidate experience by tailoring the journey for each potential new hire.

RightChoice is a modern and intuitive assessment platform that features positive and productive experiences for candidates and hiring managers through a visually compelling and engaging platform. Our modularized approach allows you to customize the best experience for you and the candidate.

RightChoice System Components:

SuccessPredictor
Increase retention, boost productivity, and improve the overall quality of agents you hire.

SalesPersona
Reveal candidates' sales personality makeup and their unique motivators.

CareerView
Uncover candidates' work style preferences, motivators, concerns, and expectations so hiring managers can provide a realistic preview of the career and evaluate appropriate fit.

Performance Skills Index
Identify people with cognitive skills needed to pass licensing exams.

LeaderPersona
Evaluate a candidate's likely effectiveness in functions such as recruiting, selecting, training, coaching, and managing producers and staff.

CollaboRate
Identify candidates' preference for collaborative work.

Learning Styles
Understand and leverage each candidate's primary learning style.

Streamlined, actionable feedback reports for hiring managers with supporting resources.

Personalized candidate reports encourage them to learn more about their career.

Validated results grounded in the science and research expected from LIMRA products.

Learn how to get started customizing your assessment journey with RightChoice today.
